## GET READY FOR A NEW TYPE OF ADVENTURE GAME

Resurgam is Plymouth's first location-based live action game using digital and mobile technology. History, technology and theatre are fused to create an original game experience that immerses you in a hunt for the magical Pearl of Plymouth. The adventure starts at sundown when you will find yourself in a city swarming with sea demons and on the cusp of being lost under water. Can you find the Pearl and restore the balance between land and sea without getting caught by sea demons?
